The young society folks of the future will be the most democratic in their mode of living, providing there is no change in their desires and wishes twenty years hence.

Hirest cars are the popular conveyance for the morning sloop and it is a most interesting sight to see the little tots on the West Farnam district climb onto the cars and run for an open window. This cannot be done in an automobile so nicely and neither does a chauffeur issue transfers which allow them to climb down again in a few moments and take another car.
